

Think the Guardian Warning Line System is more than you need? Our [Sentinel Flat Warning Line System](#) may be exactly what you're after. It's designed to be a "visual warning" for hazardous areas on roofs, around open pits and dangerous machinery, crowd control and more.

[Sentinel](#) bases are 26" x 26". A base with upright is 42-3/4" high and weighs 42 lbs. A 4-base system with 100' of flagged line and 4 uprights weighs only 172 lbs.

Removable pin allows post to be disassembled for transport.

Use 1 base every 33 feet.
